

March 2020

Dear ESS Customer,

Given the current situation with the novel coronavirus (COVID-19), we would like to update you on the precautionary measures we're taking for the health and safety of our customers and team members. We are closely monitoring local and national reports regarding the impact of COVID-19.

We are following recommendations from the Centers for Disease Control (CDC) and World Health Organization (WHO), as well as our state and local authorities in taking extra safety measures at our facility. We have implemented enhanced cleaning procedures on top of our already high standards, such as an increased wipe down of all commonly touched areas, including lounge furniture, counters, door handles, range gear and equipment.

The health and safety of our customers and employees is our top priority, and we are committed to doing our part to help keep you safe. At this time, Elite Shooting Sports is open for business during regular hours to provide a safe environment for our customers. As the situation evolves, we will make any necessary changes and communicate those changes to you.

Please help us protect YOU, our customers, and staff! The best way to avoid infection is to maintain proper hygiene:

1. Wash hands often with soap and warm water for at least 20 seconds, especially after blowing your nose, using the restroom, coughing, or sneezing. Use alcohol-based hand sanitizer if you cannot wash them.
2. If you need to sneeze, do so into a tissue. If one is not readily available, sneeze into your inner elbow. Wash your hands immediately afterwards.
3. Disinfect often-used items and surfaces regularly.

We thank you for your continued trust and support.

Gregory B. Wodack  
Owner/Managing Partner
